

APPLE INSECTICIDES

This sheet lists some products used to control insects on apple trees. The health symptoms listed may be caused by things other than pesticides. If you feel sick after exposure to pesticides, contact a doctor or clinic.

Washington State
Department of Agriculture

Year 2002

Pesticide (Brand Name)  highly toxic	Product Use Changes <i>Read the Label</i> DO NOT ENTER TREATED AREAS FOR: Reentry intervals will vary by product 	Common Symptoms of Acute Insecticide Poisoning
